nathancroawell@gmail.com || 07 97 1758848
www.nathancroawell.net

SKILL SET

HTML5, CSS3, Responsive, jQuery, Javascript, Grunt, Gulp, SASS, LESS, Nunjucks, Umbraco CMS, Kentico CMS, Foundation, Bootstrap, Photoshop, Illustrator, GitHub.

EXPERIENCE

Aug 2017 – Nov 2017   **TMP Worldwide**

TMP is a digital agency that specialises in designing and building recruiting websites for companies like Lloyds Banking Group, Mercedes F1 Team, AA, among many other sites.
I was brought on during their busy time of the year to help with implementing new designs, bug fixing and content.

Skills used - HTML/HTML5, CSS/CSS3, jQuery/javascript, NPM, SASS, Umbraco CMS.

Nov 2016 – Jul 2017   **PortalTech Reply**

While at Reply I worked on 2 separate projects.
A new build for EasyJet's booking system, I was part of a team of 4 frontend developers building a prototype for the Java team to implement into Hybris.
As the only frontend developer at P&O Ferries I implemented a new design in Hybris for the booking journey based on Google's Material design.

Skills used - HTML/HTML5, CSS/CSS3, jQuery/javascript, Gruntjs, Nunjucks, Less.

May 2016 – Oct 2016   **ThinkMarkets**

ThinkMarkets is trading company with it's own trading platform for it's clients, I was one of the main developers responsible for building a new responsive site after the company rebranded from ThinkForex.

Skills used - HTML/HTML5, CSS/CSS3, jQuery/javascript, worked within the Kentico CMS.

http://www.thinkmarkets.com/

Oct 2015 – Dec 2015   **Shelter**

Brought on for their xmas campaign to help with the new sites page builds and to assist with email builds – while there also developed new email templates for Shelter.

Skills used - HTML/HTML5, CSS/CSS3, jQuery/javascript, Sublime, worked within the Squiz Matrix CMS.

http://england.shelter.org.uk/

Jul 2015 – Sep 2015   **The Natural History Museum**

My role here was to help with the migration of The Natural History Museum's dynamic apps to the new AEM site.

Skills used - HTML/HTML5, CSS/CSS3, SASS, Sublime, Gruntjs, worked within a CQ5 Java environment.

http://www.nhm.ac.uk/

Mar 2015 – July 2015   **Immediate Media**

Was part of the B&E team maintaining 8 different sites which included a new build for Visordown (not live yet). For Visordown my main role was setting up the master pages, navigation, grunt and requireJS.

Skills used - HTML/HTML5, CSS/CSS3, SASS, jQuery, javascript, Sublime, Gruntjs, worked within an MVC .net environment.

Feb 2015 – Mar 2015   **Zone**

A one month contract with Zone Digital agency to help with bug fixes on a number of their clients responsive sites.

Skills used - HTML/HTML5, CSS/CSS3, SASS, jQuery, javascript, Sublime, Umbraco CMS, Gruntjs.

http://www.thisiszone.com/

Feb 2014 – Feb 2015   **River Island**

I was brought on as a responsive frontend developer to help with new page builds and to incorporate new responsive layouts in the site using media queries, jQuery / javascript.
I worked closely with the UX / UI and design teams to come up with the best solution for the user experience on the River Island site.

Skills used - HTML/HTML5, CSS/CSS3, SASS, jQuery, javascript, Sublime, Umbraco CMS and have experience working with MVC .net, C#.
